LOCAL LAW NO. 2 FOR THE YEAR 2017

A LOCAL LAW REGULATING THE TOWING AND IMPOUNDING OF VEHICLES

Be it enacted by the County Legislature of the County of Cortland as follows:

Local Law No. 8 of 2014 is hereby amended to read as follows:

Section 1. This Local Law shall be known as the "Towing and Impound of Vehicles Law" and shall regulate the actions of owners and operators of tow trucks in Cortland County. It will also establish procedure for the impoundment of vehicles within Cortland County. This local law shall read as follows:

I. - Legislative Intent

Cortland County is intersected by roads and highways. Like most counties of a historically rural nature, Cortland is comprised of many small communities situated throughout the County, and automobile travel is by far the most prevalent means of travel throughout the County. Cortland County is bisected by Interstate 81, a major east-coast thoroughfare that carries millions of vehicles annually from Tennessee in the south to the Canadian border in the north. In addition to travelers through and around Cortland County, large commercial vehicles must travel though the City of Cortland and other smaller communities within the County on a regular basis.

Accordingly, the roads and highways of Cortland County see significant vehicular traffic on a daily basis, and the free, safe and unimpeded use of these roads and highways is in the best interests of Cortland County residents and visitors to our County.

In the summer months Interstate 81 serves as a major conduit for vacationers traveling to and from the Adirondack Mountains and Thousand Islands regions. As a consequence, tens of thousands of motor vehicles can pass through Cortland County on a summer day. In addition, Cortland County is situated in the microclimate of the Finger Lakes Lake-Effect Snow Belt. This unique microclimate frequently results in the roads and highways of Cortland County being covered with significantly more snow than neighboring counties to the north and south. One favorable aspect of this microclimate is the situating of ski areas and snowmobile trails throughout and near Cortland County. This often results in increased traffic on the roads and highways of Cortland County in the winter months as well.

In all these instances, it is of paramount importance to keep the roads and highways of Cortland County free of obstruction and safety risks. From time to time accidents or mechanical failures lead to disabled vehicles on the roadways of Cortland County, and these vehicles present the very sort of hazard this law seeks to prevent. A safe and regulated method of the towing and storing disabled vehicles is needed that will assure the roads of the County are cleared of obstruction in as prompt a manner as is possible.

This law establishes a process for the application and receipt of licenses for towing companies operating in Cortland County. It recognizes the need for the regulation of towing companies and tow truck operators to establish uniform standards of safe, timely operation. It allows tow truck owners and operators to work closely with the Emergency 911 Dispatch Center and Cortland County law enforcement to ensure the safety of the residents of, and visitors to, Cortland County. In addition, it recognizes the competing property interests of the owners of disabled vehicles, and the commercial interests of the owners and operators of the towing companies needed to remove disabled vehicles from the County roadways, and establishes a fair and equitable balance between these interests.

II. - Applicability

This law regulates the use of tow-trucks and the towing and impound of vehicles within the County of Cortland and on County of Cortland Property, excepting and reserving the rights of the City of Cortland to utilize its own policy.
