Cortland County is Recycling Batteries

CORTLAND – Replace the alkaline batteries in your smoke detectors, flashlights and other emergency items and get rid of your old batteries in one quick, environmentally-friendly step. Alkaline batteries are traditional AA, AAA, C, D, and 9-volt batteries. Rechargeable batteries are also being accepted.

“In an effort to clean the waste stream and reduce hazardous materials in our trash, Cortland County is accepting batteries as part of our ongoing recycling effort,” said Legislature Chair Susan Briggs.

Collection Boxes may be found in the following locations:

- Area Agency on Aging
- Cornell Cooperative Extension
- Social Services Security Station (2nd floor)
- Clerk of the Legislature
- Chamber of Commerce (37 Church Street)
- Highway Administration (Traction Drive)
- Public Safety Building
- County Clerk’s Office (Courthouse – 1st floor)
- County Recycling Center on Pendleton Street.

This is the latest initiative which will supplement the County’s recycling efforts. The Recycling Center at 137 S. Pendleton Street in Cortland already accepts most recyclable materials, including newspapers, cereal boxes, milk jugs food containers, magazines, cardboard, metal cans, glass bottles and much more. For additional information on the County’s recycling program visit www.cortland-co.org/sw/Default.htm and to stay up to date on recycling and other County programs “Like” the Cortland County Legislature page on Facebook.

The County Recycling Center is open from 8 a.m. to 4p.m. Monday through Friday, and form 9 a.m. to 1 p.m. on Saturdays.
