FOR IMMEDIATE RELEASE

### **Crown City Windfarm Plans Ready for Public Review**

CORTLAND - The Cortland County Legislature has declared the Draft Environmental Impact Statement for the proposed Crown City Windfarm adequate for public review.

At their meeting March 28 the Legislature approved a resolution stating that the project sponsor, TCI Renewables, had addressed all issues included in the scoping document approved earlier in 2012. The full DEIS document will now be made available to all involved and interested agencies and a 105-day public comment period will commence April 12.

Three public hearings will be held during this time, the dates and locations will be announced soon. Hard copies of the DEIS will be available at the Town Clerk offices in Cortlandville, Truxton, Solon and Homer, as well as the County Office Building in the office of the Clerk of the Legislature. An electronic copy will also be made available at [www.cortland-co.org](http://www.cortland-co.org).
