FOR IMMEDIATE RELEASE:

Cortland County Website Seeking Upgrade

Requesting Proposals to Upgrade, Maintain, Host

CORTLAND - As part of an ongoing process to modernize and streamline technology at the County, the Buildings & Grounds Committee has released a Request for Proposals (RFP) to update the County Website to a more user-friendly and aesthetically appealing design. The deadline for the RFP is 4:00 p.m. on Wednesday, September 9, 2015.

“Taking steps to upgrade the website will greatly improve the overall transparency of the services provided by Cortland County government,” said Chairman Donnell Boyden. “With the increased use of technology-based communication it is important to maintain the County’s website to ensure availability of up-to-date information at all levels.”

Robert Corpora, Director of Information Technology said, “The upgrade sought will improve the appearance and ease of access of the site; provide online forms, job postings, applications, and payments; allow departments to update their individual pages, and will greatly benefit all who visit the website.”

The Buildings & Grounds Committee meets September 8 and October 6, at 9 a.m. in Room 304 of the County Office Building.
